An all-in-one Solution for your Safety and Compliance Needs

Mismanaged workplace safety mishaps result in significant financial losses for enterprises.

The costs of workplace injuries and illnesses, including both direct expenses like workers' compensation and medical fees and indirect costs such as lost productivity, administrative expenses, and legal fees, can amount to billions annually. Globally, workplace accidents and occupational diseases result in substantial economic impacts, with millions of fatal and non-fatal incidents.

Complex Regulatory Compliance

Navigating a web of complex regulations across different regions and industries.

Safety Incidents and Risk Management

Managing incidents and mitigating risks is crucial.

Operational Inefficiencies

Siloed systems and manual processes often lead to operational inefficiencies.

Workforce Training and Engagement

Ensuring a well-trained and engaged workforce is a priority.

Adaptability and Scalability

Enterprises must adapt to evolving business needs and scale their operations.

Global Delivery and Compliance

Enterprises operating across borders face the challenge of managing global compliance.

Discover our Pre-Configured Modules for Effective WPS ERP Software

Permit to Work Management (PTW)

Streamline the process of authorizing and tracking permits for hazardous tasks, ensuring compliance and safety. Enable efficient planning and reducing potential workplace incidents and ensuring proper documentation for regulatory purposes.

WPS ERP Software define roles to take action on request permit.

For Permit Requestor

- ✓ Request a Safety Work Permit.
- ✓ Report completion of Safety work.
- ✓ Request Extension on an Issued Safety Work Permit.
- ✓ Re-submit photographs of worksite each day for continuity/renewal of Hot Work permit.

For Permit Issuer

- ✓ Review requests for Safety Work Permits.
- ✓ Review and approve/reject requests for extension of issued permits.
- ✓ Issue an interim permit along with his declaration.
- ✓ Assign people to perform an inspection of conditions at worksite.
- ✓ Review and approve requests for closure of permits or demand a resubmission of permit closure request.

For Site Reviewer

- ✓ Receive requests from Permit Issuer to inspect a site for purpose of issuing Safety Work Permit.
- ✓ Receive requests from Permit Issuer to inspect a site for purpose of extending issued Safety Work Permit.
- ✓ Perform inspection of the site against the check-list, photographs and other details submitted by the Request Initiator.
- ✓ Allow the issuance of safety work permit with a declaration, or suspend an interim permit on account of deficiencies.

Requesting Work Permit
