An all-in-one Solution for your Safety and Compliance Needs

Mismanaged workplace safety mishaps result in significant financial losses for enterprises.

The costs of workplace injuries and illnesses, including both direct expenses like workers' compensation and medical fees and indirect costs such as lost productivity, administrative expenses, and legal fees, can amount to billions annually. Globally, workplace accidents and occupational diseases result in substantial economic impacts, with millions of fatal and non-fatal incidents.

Complex Regulatory Compliance

Navigating a web of complex regulations across different regions and industries.

Safety Incidents and Risk Management

Managing incidents and mitigating risks is crucial.

Operational Inefficiencies

Siloed systems and manual processes often lead to operational inefficiencies.

Workforce Training and Engagement

Ensuring a well-trained and engaged workforce is a priority.

Adaptability and Scalability

Enterprises must adapt to evolving business needs and scale their operations.

Global Delivery and Compliance

Enterprises operating across borders face the challenge of managing global compliance.

Discover our Pre-Configured Modules for Effective WPS ERP Management

Leverage our pre-built modules for a fast implementation or get custom built solutions that serve your organization's needs to accelerate digital transformation of your WPS processes.

Incident Management & Reporting System (IMS)

Effectively track, manage, investigate, and generate reports for incidents, accidents, and near-misses. Enables prompt reporting and analysis, fostering a proactive safety culture within the organization.

WPS ERP management software empowers users to report the following incidents

Near Miss Incidents Reporting

Hazardous Safety Incident Reporting

Safety Incidents Reporting

Behavioral Incidents Reporting

Permit to Work Management (PTW)

Streamline the process of authorizing and tracking permits for hazardous tasks, ensuring compliance and safety. Enable efficient planning and reducing potential workplace incidents and ensuring proper documentation for regulatory purposes.

WPS ERP management software define roles to take action on request permit.

For Permit Requestor

- ✓ Request a Safety Work Permit.
- ✓ Report completion of Safety work.

For Permit Issuer

- ✓ Review requests for Safety Work Permits.
- ✓ Review and approve/reject requests for extension of issued permits.

For Site Reviewer

- ✓ Receive requests from Permit Issuer to inspect a site for purpose of issuing Safety Work Permit.
- ✓ Perform inspection of the site against the check-list, photographs and other details submitted by the Request Initiator.

Requesting Work Permit

Testimonials

“

Triazine was recommended by IBM for our **Pizza Online Ordering** mobile app and the team stood up to our expectation. It was a wonderful experience working with the team and I highly recommend Triazine as dependable development partner for organization like us.

“

It has been a pleasant experience, working with team Triazine on one of my ambitious project of developing a weather app for mobile - **"IMD Weather"**. The team has helped me in this journey with great zeal and dedication.

“

I am writing this letter to thank you for your service and support to execute **ICOLD 2024** website and Mobile Apps (android & iOS). Your team's level of dedication and professionalism has impressed us tremendously.

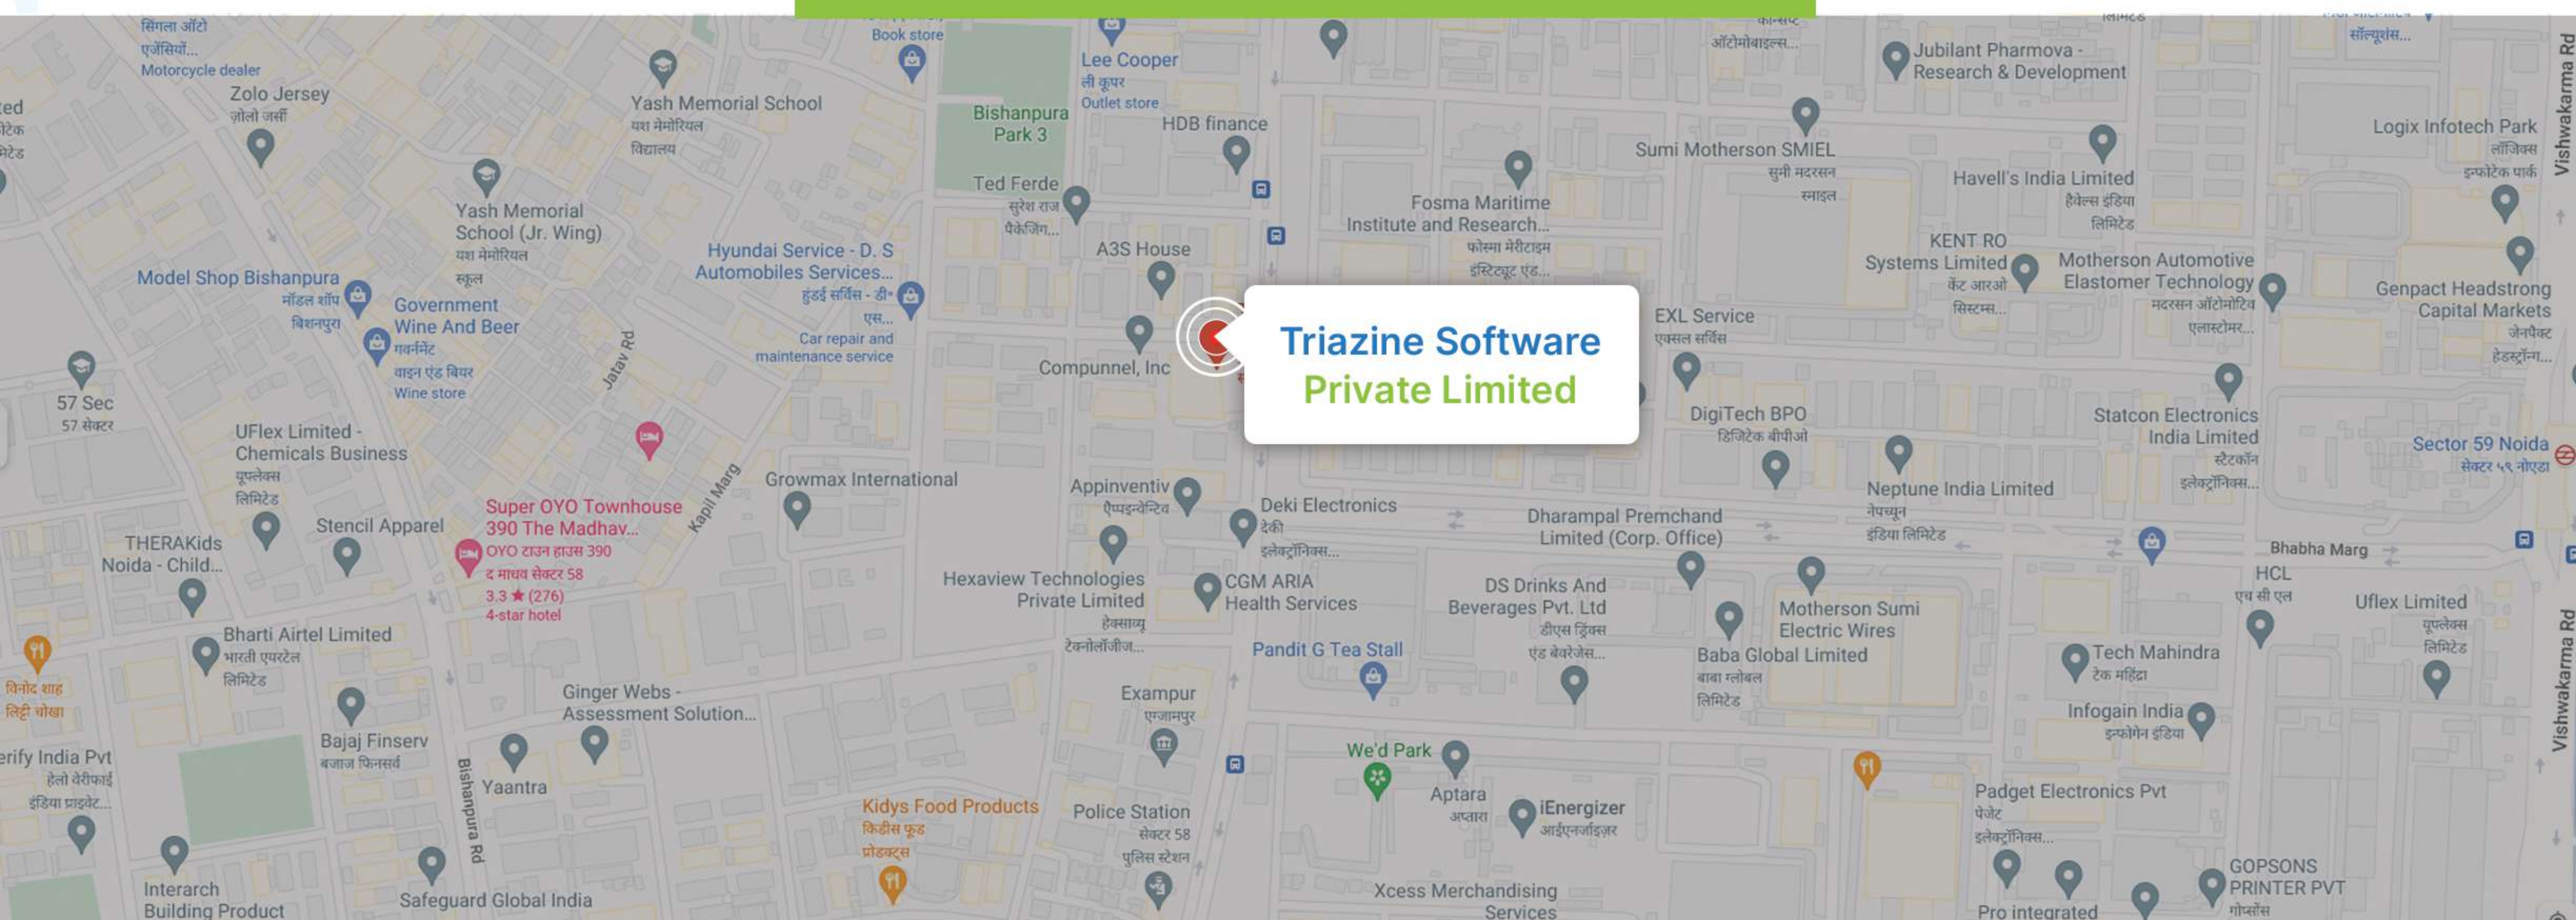

“

IT was really working with Triazine team, as they have aligned tech guys actually working on project and do have a established escalation matrix so if things are not smooth with tech guys, I have been able to reach their management things get back on track.
